Universal Kit 9
ET901 Series in Kit form

Communications

The **Universal 901 Kit** meets all safety standards by providing the built-in features necessary to promptly connect, identify, and respond to calls for assistance.

With all the features of our ET901 K-Phone this kit allows you to upgrade older and competitor phones to the K-Tech features you know and love:
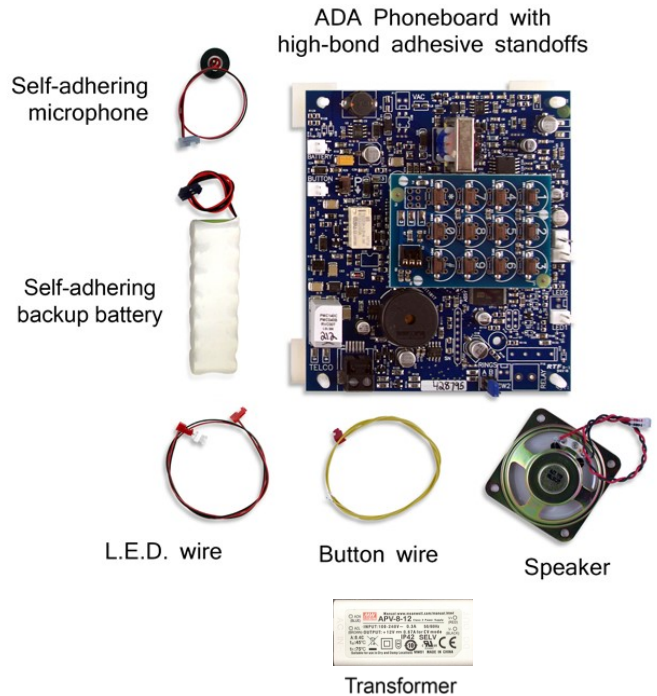

1. Multiple number dialing
2. Voice location announcements
3. Programmable timers
4. Remote programming
5. Line Loss Monitoring Relay

All with K-Tech's voice prompted programming system

ADA Phoneboard with high-bond adhesive standoffs

Self-adhering microphone

Self-adhering backup battery

L.E.D. wire

Button wire

Speaker

Transformer

ET-901PDL-KT

Features

- Hands-free Speakerphone
- Five number automatic dialer
- Built-in keypad & remote programming
- Automatic & programmable shut-off

- Non-volatile memory
- Visual indicator
- Two voice announcement messages
- Voice prompted programming

- Automatic answer & shut-off
